UC Davis was recently designated as a lead host U.S. university in a major initiative focused on STEM (Science, Technology, Engineering and Mathematics) fields sponsored by the Brazilian government. Brazilian faculty, postdoctoral researchers, graduate students, and undergraduate students will conduct research and study at the top universities in the world.

For more information on how to apply for one of these opportunities, contact the appropriate office listed below.

**FACULTY AND POSTDOCTORAL RESEARCHERS**

The Brazilian government will provide 20+ postdoctoral fellowships for postdoctoral researchers to conduct research at UC Davis for up to 24 months.

**TRACEY PEREIDA**  
ACADEMIC PERSONNEL SPECIALIST

ISABELLA
OLIVEIRA DA CUNHA HINES

“These first days at UC Davis have been a great mix of feelings. On the one hand I need to be alert to keep up with my academic tasks and to get used to how everything works, but on the other hand UC Davis has given me everything that I need to succeed. My classes are thrilling, my professors are inspiring and I am amazed with how much I've learned in that short time! As an international student and even more as a scholarship student I want to take as much as I can from my time at UC Davis; so far it is has already been the best experience of my life!”

– Isabella Oliveira da Cunha Hines
University of Sao Paulo (USP), Brazil

USP is the largest university in Brazil and one of the most prestigious in the nation.

IGOR
RODRIGUES BARROSO

“In these first weeks I have been studying in Davis I have already noticed some of the reasons that make this university one of the best in USA. From the huge campus to the excellent students, it is visible everywhere that UC Davis is indeed an amazing place to be a student. It has exceeded all of my expectations. Thanks to the Brazilian government and to the Global Study Program staff I am having the experience of a lifetime, one which is enhanced by UC Davis' quality. I hope to excel in my studies and to bring all the best from UC Davis back to Brazil.”

–Igor Rodrigues Barroso
Computer Engineering
Instituto Tecnológico de Aeronáutica (ITA), Brazil.

ITA is Brazil’s top ranked and most prestigious engineering school, accepting little more than 100 undergraduates per year.
